Prototyping

Design Systems

WORK EXPERIENCE

USER INTERFACE DESIGNER

Wambi | June 2020 - Present

I work with a team of designers to conceptualize and iterate on the visual design of the product. I work in an agile scrum environment among a devolpment team to ensure design quality and ease of use. I create elevated designs that meet the evolving feature requirements as the platform progresses in its releases.

LEAD USER INTERFACE DESIGNER

Coactive | October 2019 - June 2020

I built the groundwork for a design team by utilizing the component-creating capabilities of design software, like Adobe XD and Figma. I worked personally with clients to bring their vision for a product to life, all while maintaining the integrity of the core UX of a product. I created unique, custom designs all while adhering to Client Brand Guidelines, and trained a contract designer to become a full-time UI designer at Coactive.

GRAPHIC DESIGN INTERN

Brybelly Holdings | May 2018 - August 2018

Worked full-time creating packaging designs for company products, professionally photographing and editing photos for online listings, and contributed to product conceptualization sessions with overhead designers.

CO EVENT COORDINATOR

AIGA at Herron School of Art and Design | May 2016 - August 2018

Responsible for creating and organizing events to serve fellow members of AIGA .and the students of Herron with an informative and enjoyable design-related experience.
